EDUCATION

The University of Reading Reading, UK	2024 - 2027
BEng Biomedical Engineering (Predicted First Class Honours)	
Relevant Modules: <i>Biomedical Sensors & Wearable Technology (80%)</i> <i>Biomedical Problem Solving (75%)</i> <i>Research & Professional Skills (73%)</i>	
The University of Surrey Guildford, UK	2020 - 2023
CertHE Biomedical Engineering Life Sciences Foundation (ISC)	
Technical Skills: Python C++ MATLAB SQL Fusion 360 ANSYS Arduino Linux 3D Printing Excel Medical Device R&D Quality Assurance & Process Validation ISO Standards Cleanroom Practice Design for Manufacture Machine Learning Medical Image Processing Power BI	

WORK EXPERIENCE

Kriya Medical Technologies Chennai, India	Mar 2024 - May 2024
R&D & Product Development Intern	
- Restored quality output across 500+ validated prototypes by diagnosing and resolving critical manufacturing defects during commissioning of a high-volume HUSKY injection moulding line alongside an international task force (UK, Luxembourg, Korea). - Accelerated R&D decision-making on COVID strain analysis by executing analytical stability studies on blood biomarkers using CFX Opus 96 Dx real-time PCR systems and structuring the resulting datasets. - Ensured regulatory compliance across prototype batches by conducting rigorous quality control in ISO-compliant cleanrooms, validating test tubes against structural integrity, heat mark, cap locking, and watermark criteria. - Recognised by the CEO as the only UK-based intern for exceeding expectations; received a formal written recommendation from the Head of R&D.	
Layqa Perfumes Dubai, UAE	Mar 2026 - Present
Data Analyst	
- Informed commercial decisions for the founder by analysing sales and customer data to identify purchasing trends, repeat-customer patterns, and product performance across the brand's range. - Surfaced conversion opportunities by tracking website performance and customer journey metrics to flag drop-off points across the purchase funnel. - Reduced reporting overhead by building dashboards that give the founder an at-a-glance view of brand performance.	
Layqa Perfumes Dubai, UAE	Nov 2025 - Feb 2026
Digital Consultant	
- Delivered a conversion-focused online storefront aligned to the brand's luxury positioning by building and maintaining the website in Next.js and React. - Strengthened the brand's online presence by creating digital content and advising on positioning as it scaled alongside UAE retail stockists.	

PROJECTS

Paediatric Prosthetic Hand <i>3D Printing, CAD, Materials Selection</i>	Oct 2022 - May 2023
- Won Best Biomedical Engineering Design in cohort by leading a 4-person team to deliver a working paediatric mechanical prosthetic to deadline through weekly milestone reviews. - Ensured child safety across the assembly by specifying child-safe materials with shock absorption and thermal safety features using sensors.	
Jenny.ai <i>Python, Electron, React, Claude API, WebSockets</i>	Sep 2025 - Present
- Built a multi-agent AI desktop LLM assistant integrating browser automation, email access, verified live information, persistent user context and voice interaction across career, university, news and personal workflows. - Architected modular tool orchestration across a Python/WebSocket backend with Claude-powered reasoning, enabling user-directed retrieval, browser interaction and workflow execution from a unified Electron interface.	
NHS Patient Management System <i>C++, Data Structures</i>	Sep 2024 - Dec 2024
Modelled the core functions of an electronic patient record (EPR) system by building a clinical records application managing patient registration, record updates, and secure search across structured patient data.	

LEADERSHIP & ADDITIONAL EXPERIENCE

Desi Cultural Society, University of Surrey Guildford, UK	Sep 2023 - Jun 2024
<i>Sports Manager</i>	
Coordinated inter-society tournaments across the academic year by managing event budgets and volunteer scheduling.	
Life Sciences Foundation, University of Surrey Guildford, UK	Sep 2020 - Aug 2021
<i>Deputy Student Head</i>	
Represented the student body to faculty by coordinating academic events and peer initiatives.	
Starbucks Guildford, UK	Jan 2023 - Mar 2023
<i>Barista (Part-time)</i>	
Sustained 20 hours of work per week alongside full-time study by managing bar, till, and floor rotations serving 100+ customers daily.	

ADDITIONAL INFORMATION
