| <b>The University of Surrey</b>   Guildford, UK                                                                                                                                                                         | 2020 - 2023 |
| CertHE Biomedical Engineering   Life Sciences Foundation (ISC)                                                                                                                                                          |             |

## TECHNICAL SKILLS

**Engineering & Quality:** Medical Device R&D | Quality Assurance & Control | Process Validation | ISO Standards | Cleanroom Practice | Regulatory Compliance | Embedded Systems | Signal Processing

**Software & Data:** Python | MATLAB | C++ | SQL | Machine Learning | JavaScript | React | Node.js | Electron | Git | Excel | Power BI

**Design & Hardware:** Fusion 360 | ANSYS | Arduino | 3D Printing

## RELEVANT EXPERIENCE
